Objective

An engineer transitioning to economics, aiming to apply critical and analytical skills to economic analysis and policy development.

Education

Arizona State University, Master of Science, Economics   **Aug 2025 – May 2026**

Strengthened analytical and programming abilities in Stata, R, VS Code, and Python through hands-on regression and data analysis projects.

Alfaisal University, Saudi Economists Program, Economics   **Sep 2024 – May 2025**

Private Program contains Master/PhD level courses, Sponsored by Saudi Central Bank.

Shaqra University, Bachelor of Engineering, Electrical Engineering   **Aug 2018 – Jun 2023**

Grade: Very Good

Experience

Economist at Saudi Central Bank (Currently)   **Aug 2024 – Present**

Contributed to economic research, policy development, and data-driven decision-making.

Electrical Engineer at General Authority of Defense Development   **Jun 2024 – Aug 2024**

Focused on quality assurance and technical management to ensure project success.

Electrical Engineer at Saudi Electronic Trading Company SETRA   **Jul 2023 – Oct 2023**

Assessing client's needs, developing tailored technical solutions, and providing essential technical support throughout the client engagement process.

Trainee Engineer at Alfanar Projects   **Jun 2022 – Aug 2022**

Gained project management experience and contributed to giga-projects such as Sudair SolarPV Project.
